

# ETHICS AND MEDICS

## Subject Index

(Volume 1 through Volume 7)  
1976-1983

**Key:** The first digit is the volume number: the second digit is the issue number: the third is the page number. Thus 2(1):3 is read: Volume 2, issue number 1, page 3. N.B. The May, 1982 issue is erroneously numbered "4." It should be "5" and is considered as 5 in the index. The June, 1982 issue does not bear a number: it is #6 of Vol. 7. The July, August, and Sept. issues of 1983 are erroneously numbered. They should be "7", "8", and "9", respectively and are considered as such in the index.
